Re: Badger Roofing nomination for The Better Business Bureau Ethics Award

To Whom It May Concern:

I am honored to give a reference of high regard for Badger Roofing and most especially to Roger and Sally Barton, the co-owners who conduct a business with the utmost integrity.

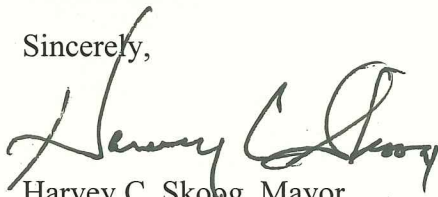

Badger Roofing has been a trusted business in Prescott and serving all of northern Arizona since 1994, providing a quality product along with superb, professional and honest customer service.

Badger Roofing co-owners, Roger and Sally Barton, developed and host a community based home improvement radio program, "We've Got You Covered – Home Improvement Radio." Through this program they not only support the contracting community but educate and encourage community residents to hire local licensed, bonded and insured contractors.

Roger and Sally have a strong desire to serve the community and have personally invited me, on several occasions, as a guest on the radio program to share information on important issues and developments that impact the citizens of Prescott Valley.

I congratulate Badger Roofing on conducting a business in such a positive and completely ethical manner! They are well deserving of this nomination for The Better Business Bureau of Ethics Award.

Sincerely,

Harvey C. Skoog, Mayor
Town of Prescott Valley
